

10 Things SI Leaders Request from their Instructors

Include our names and office number in the syllabus.

Provide some materials before the start of the semester so that we can be well prepared for the first week of class.

Include a slide on differences in exam grades for SI and non-SI participants after the first exam.

Periodically announce session times and exam reviews in class. We make announcements, but when you make them, students listen.

Encourage those who are doing well in the class to attend, along with the ones that are struggling.

Offer feedback to us on our activities and session plans. We want to make sure we are doing a good job!

Please don't give out extra credit for coming to SI. It never works!

We have basic FERPA training, but are not trained to grade assignments or be a substitute instructor.

Please let us know the exam date at least a week in advance (if it's not on the syllabus).

LAST BUT NOT LEAST:

Please let us or our supervisor know if there is anything we could do better in your class!
